## PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building accessible, high-performance web applications using Angular, React, Node.js, and CI/CD pipelines. Adept at translating UX designs into responsive, scalable interfaces and collaborating across agile teams to deliver performant, maintainable codebases.

## EXPERIENCE

### Web Developer | Mission Systems Inc., Toronto, ON (Jan 2022 – Dec 2024)

- Developed, tested, and deployed new features for a large-scale Angular application in an agile/scrum environment.
- Enhanced UX and ensured accessibility compliance with WCAG 2.1 AA and AODA standards.
- Built and optimized CI/CD pipelines, cutting deployment time by 50% and improving reliability.
- Partnered with designers and backend engineers to implement scalable and maintainable solutions.

### Web Developer Co-op | Ontario Ministry of Health, Toronto, ON (Jan 2020 – Aug 2021)

- Collaborated with senior developers to build and maintain a large-scale Angular-based web portal used by 100,000+ users across the province of Ontario.
- Implemented front-end components, data visualization modules, and responsive UI elements using TypeScript and Angular.
- Assisted in designing CI/CD workflows and automated testing pipelines, reducing manual QA time by 30%.
- Participated in sprint planning and review sessions focused on improving code quality, reducing post-release bugs, and tightening feedback loops..

## EDUCATION

### Computer Programming & Analysis — Diploma

Seneca College, Toronto, ON | Graduated May 2021 | GPA: 4.0 | President's Honour List  
Focused on full-stack development, database design, and software engineering principles.

### UI/UX Design — Google UX Certificate

Toronto, ON | Graduated May 2025  
Focused on user research, wireframing, usability testing, and accessible design systems.

## TECHNICAL SKILLS
